

Chiral Dynamics 2009

Tuesday 07 July 2009

Working Group 2 - Hadron structure and meson-baryon interactions: Resonances - B6 (07 July 14:30-15:55)

- Conveners: Chen, Jian-ping; Dürr, Stephan; Kubis, Bastian

time	title	presenter
14:30	Resonances at low Q^2	PHILLIPPS, Sarah
14:55	Complex mass renormalization in EFT	GEGELIA, Jambul
15:10	Different nature of ρ and a_1	LEUPOLD, Stefan
15:25	Origin of resonances in chiral dynamics	HYODO, Tetsuo
15:40	Baryonic resonances dynamically generated from the interaction of vector mesons with stable baryons of the decuplet	OSET, Eulogio
