

Chiral Dynamics 2009

Monday 06 July 2009

Working Group 2 - Hadron structure and meson-baryon interactions: Meson-nucleon scattering, chiral extrapolations - B6 (06 July 14:15-15:40)

Meson-Nucleon scattering

- Conveners: Chen, Jian-ping; Dürr, Stephan; Kubis, Bastian

time	title	presenter
14:15	Analyticity constrained pion-nucleon analysis	SAINO, Mikko
14:30	Isospin breaking in the pion-nucleon scattering lengths	HOFERICHTER, Martin
14:45	Pion-nucleon scattering around the delta resonance	LONG, Bingwei
15:00	A method to measure the \bar{K} -N scattering length in lattice QCD	LAGE, Michael
15:15	Baryon chiral extrapolation in SU(3)	YOUNG, Ross
